Monthly Special

The 3M™ PPS™ Series 2.0 Spray Cup System

Better. To help make you better.

As a painter, you take great pride in your work. You know that the ultimate quality of the repair depends on the job you do in the paint booth. You don't have time to fool around with unproven tools or discounted supplies. Time is money, quality is king and you've got vehicles to move out the door.

Reinvented from connection to cup.

Improved six ways.

Adopted by painters in every corner of the globe, the 3M™ PPS™ System has been a major boost to painting productivity and quality for nearly 20 years. Now 3M has made it even better in six critical areas, from top to bottom. Reinvented from top to bottom, it's designed to help make your life easier. To make your painting process cleaner and faster. And to make you a better, more productive painter—more confident in the quality of your work and better able to exceed the expectations of your customers and your shop.

1. Four-Point Connection
2. Quarter-Turn Lid Locking System
3. Domed Lid Design
4. New Cup in Every Kit
5. Access Window
6. Larger Sealing Plug
